

# Impact Report

## OUR MISSION

The mission of Student Impact has remained the same for nearly 25 years: building relationships through love and acceptance in a safe and consistent environment. In the last year, students faced loneliness at record levels around the US. Youth need a place to be seen, to be heard, and to be in community with others. Student Impact is that place.

## VISION

We are laser focused on building relationships in a safe and consistent environment that bring hope and healing to students right where they are. We are committed to loving, accepting, and supporting every student we interact with so that they may become who and what they were meant to be.

Leadership

Fosters an environment where youth have opportunities to practice leadership, character development and real life skills.

## IMPACT & PREVENTION

Impact through  
collaboration

Adult and student mentors take intentional steps to connect with youth - increasing awareness of needs and quality of life. Community collaboration with WYAP, Prevail, WPD, counseling services and other resources allow us to address needs quickly, and without gaps.

Prevention  
through  
intentionality

Drug overdose and poisoning is the 3rd leading cause of death amongst youth. The CDC's Youth Risk Behavior Survey found that youth who attended after school programming at a minimum of twice per week were 20% less likely to use alcohol and 40% less likely to use marijuana than their peers.
